

NOTE: Form TSP-50, Investment Allocation, is not available on the TSP Web site.

This is because the form was designed to be read by an optical scanner; if it were downloaded from the Web, this might not be possible. You can obtain a copy of the form from your agency personnel office, or, if you are separated from Federal service, from the TSP Service Office.

Alternatively, if you go to Account Access on this Web site, you can request a contribution allocation and/or interfund transfer electronically.
